# SURGERY RECOVERY & ANXIETY REDUCER

With the specially designed and formulated appetite motivating purée, the palatable Churu guarantees to put cats at ease during the recovery period. Stress and inappetence are considered to be two of the biggest concerns during pet hospitalization, but with timely feeding of Churu Nourish and/or Churu Diet, your feline patients will be at ease.

## OTHER POTENTIAL USES

- |                     |                |                      |
|---------------------|----------------|----------------------|
| Exam Distraction    | Hydration      | Nail Trimming        |
| Medication Delivery | Urinary Health | Oncology             |
| Dental Exams        | Venipuncture   | Cat Carrier Training |
| Inappetence         | Socialization  | Weight Check         |

## TWO DIFFERENT OPTIONS FOR IMMEDIATE FELINE NEEDS

4 kcal per tube • 93% moisture content  
50-count jars: a combination of tuna and chicken flavors in 0.5 oz/14 g tubes  
\*Product not complete and balanced

## WHY CHOOSE CHURU?

Stimulates appetite

Made with 100% all-natural animal protein

No artificial preservatives or colorings

Contains high moisture content

Palatable purée in an easy-to-feed tube

Low-calorie content

We use only high-quality human grade ingredients including natural wild tuna and farm-raised chicken. Our products are low in calories, grain free, and packed with the moisture that cats need to be healthy.

Inaba Foods produced its first pet foods in 1958. Since then we have been producing high quality pet foods made with carefully selected human grade ingredients.
